**Examiner's Comments/Reasons for allowance**

The Examiner has agreed to the suggested grouping of the instant invention as stated by applicant in the response dated 9/17/2004.

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Lowell Carson on 10/13/2004.

The application has been amended as follows:

**In the Claims**

Cancel claims 1-4 as they are drawn to a non-elected invention.

In claims 9, 10, 16 and 18, replace "ceramic vacuum cylinder" with - - ceramic-lined vacuum cylinder - -.

The following is an examiner's statement of reasons for allowance: independent claims 5, 6, 16 and the respective dependent claims are allowed because the instant invention requires a loom for weaving three dimensional structures. Specifically, the loom requires a novel structure requiring a plurality of independently controllable bias arms for releasably gripping one of a plurality of bias fiber holders and translating the gripped bias fiber holder within a range of motion determined by the distance between to two bias shuttles.
